

# KNIGHT GLOBAL

CREATING A NEW STANDARD

Gliding You  
into Position  
with  
Ease

## Ergo Seat/ Chairs

Knight Global's Ergo Seat System is a mobile workstation that assists an operator in maintaining an ergonomic position while performing various tasks in a demanding manufacturing or maintenance environment. The Ergo Seat allows the operator to remain in a seated position and move effortlessly to and from each workstation or difficult to access work area while meeting work demands efficiently.

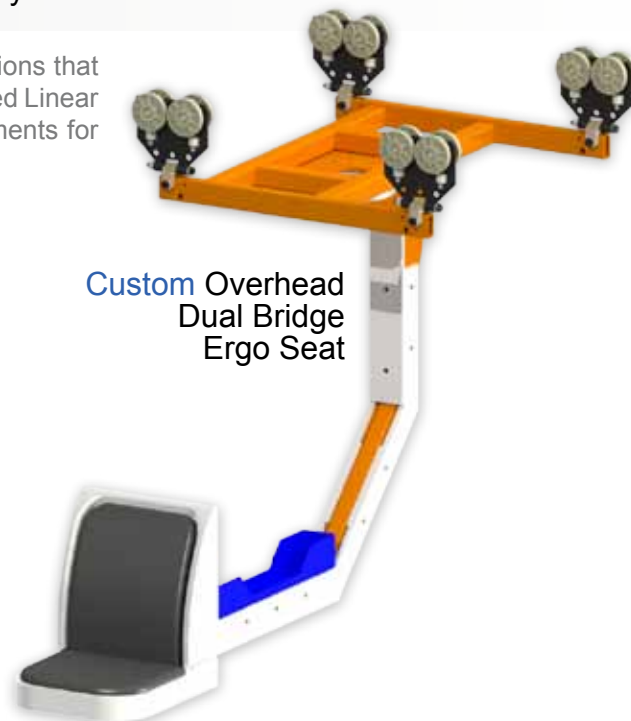

Knight's Ergo Seat System is available in various custom designed configurations that are mounted to an overhead single or dual bridge rail system, or a Floor Mounted Linear Rail System. Each Ergo Chair is designed to the specific application requirements for height, adjustability, rotation, accessories and safety equipment.

## DSA1106 Features
