

New from Knight Industries: Pneumatic Zero Loaders

Lift Zero Loader

The new Knight Lift & Tilt Zero Loader and the Lift Zero Loader combine the convenience of ground level loading with the footprint of a standard lift table. Designed specifically for pallet jacks, push carts or taller hard to reach container applications. Allows the operator to work in a safe ergonomic range, increasing productivity while reducing fatigue.

Lift & Tilt Zero Loader

- 4000 lbs [1814 kg] capacity standard
- 24" [61 cm] standard lift
- Free standing pedestal or foot control
- Easy to guard
- Narrow foot print
- Various heights available
- 5 year warranty
- Pneumatically powered
- Fast and easy installation
- Low maintenance
